

White Water

Rafting the Rio Chili - **s/75**

An exciting white water experience and a great choice for anyone with a couple of free hours to spare. This tour is a short 20 minute ride from Arequipa's city centre in the scenic Reserva Ecologica de Chilina.

The run is a 6km section of the Rio Chili starting with Class II and III, and finishing with a great section of Class IV Rapids. This tour has an approximate float time of one and a quarter to one and a half hours on the river. The total tour takes around 3 hours including transportation, equipment, orientation and return to Arequipa.

We use private transportation, so feel free to bring your camera and other gear if you want photos of the launch and landing, or on the river if you have a waterproof camera. Our partner provider will also have photos available of the run at a minimal cost. While in the water our driver will watch over any belongings left in the van and will meet you at the landing for the ride back to the hostel.

Difficulty: **Easy**
